

# SYSTEM 2000

Technical data (holder)
Angle: 25°, 37°, 45°
Length: 610-1220 mm
Diameter mounting hole: 18,5 mm
Diameter pin hole: 19,75 mm
<b>BOROX® 500HB</b>
*fitted for attachment to trucks

With the BOROX® system 2000 you do not need too much pressure on the ground and the carbide pins give you a longer durability.

System 2000 is a unique product, where the pins rotate easily to collect the material where the material is grounded between the pins.

Carbide pins work their way down in to the material with a small contact surface and this makes the graer easy to maneuver.

In the BOROX® standard assortment we offer holder with different angles; 25, 37 and 45 degrees.

Article	Dimension							
	Holder S-2000		Angle	Width mm	Thickness mm	Length mm	Mounting holes	Pin holes
1601061	610 mm (2 fot)	25°	25	610	129	12	3	15
1601091	915 mm (3 fot)	25°	25	915	129	12	7	24
